Sculptural artistry meets German precision.

With its dynamic design and innovative technology throughout, Insignia takes Opel’s design language to the next dimension. Now discover what it can do for you.
This brochure covers Insignia S, SC, SRI Limited Edition, SE and Elite models only. Some of the models shown include options and accessories available at extra cost. Not all of the features described are available on every model. From time to time, we may also offer alternative Insignia models such as Special Editions, featured in their own separate literature or found on the Opel website: www.opel.ie

A premium feel.
Supreme levels of interior style and quality. With obsessive attention to detail and intuitive ergonomics that put you in total control.
Insignia. A perfect financial perspective.

Insignia ecoFLEX engines underline our commitment to saving you money on your motoring from a business or personal perspective. The benefit of reduced vehicle tax and company car taxation – not to mention incredible fuel economy – mean it’s easy to understand the fiscal benefits. And all this is achieved without compromising the outstanding performance and driveability ensuring the Insignia’s dynamic driving experience is never more apparent.

The Insignia 2.0CDTi 16v (160PS) ecoFLEX Start/Stop models, for example, deliver up to 4.3 litres/100km (combined) and feature CO₂ as low as just 114g/km, which, considering their power and performance, mean they rank amongst the lowest in their class.

We have also been researching ways of developing new cars that are more efficient than ever before. The new Opel Ampera is an Extended-Range Electric Vehicle (E-REV) that can drive up to 80 kilometres on battery power alone and over 500 kilometres utilising an on-board electric generator system.

Insignia ecoFLEX. Discover how our philosophy of forward thinking makes perfect financial sense too.
Insignia's stylish looks are complemented by precision engineered engines and transmissions:

**Turbo Diesel.** Insignia's two common rail direct injection turbo diesel engines, in 130PS and 160PS outputs, have been further refined to decrease fuel consumption and CO₂ emissions without compromising on power and driveability: the 6-speed manual versions benefit from the latest Start/Stop technology. Our latest generation turbocharger technology enables these remarkable engines to generate maximum torque of 300Nm (130PS version) and 350Nm (160PS) from only 1750rpm, with maximum power developed at only 4000rpm, to ensure efficient progress. A smooth-shifting 6-speed automatic transmission is also available with both engines for effortless driving, featuring Active Select that allows you to choose to change the gears sequentially.

**Turbo Petrol.** The 140PS turbo petrol engine utilises Variable Valve Timing, a water cooled turbocharger and intercooler to give smooth power throughout the rev range, with 200Nm maximum torque available from 1850-4900rpm, and maximum power from 4900-6000rpm, giving seamless performance. Start/Stop technology ensures fuel efficiency and CO₂s are kept in check. This engine is complemented by a slick 6-speed manual transmission.

**Turbo Diesel 4X4.** Insignia also offers an intelligent solution for those encountering slippery conditions as we are increasingly witnessing in winter time: the Adaptive 4X4 system coupled to our excellent 160PS diesel engine. This system constantly monitors driving conditions, smoothly directing drive to the wheels that need it most in any circumstances: in normal conditions, 95% of the power goes to the front wheels, but more power is fed to the rear wheels if the front loses grip, or while accelerating. Additionally an electronically controlled Limited Slip Differential (eLSD) optimises power transfer between the rear wheels. Opel's innovative FlexRide system, which continually monitors and controls the suspension, is standard with the 4X4 transmission, meaning unrivalled traction and stability in all driving conditions. Select Sport mode and drive is proportioned 40:60 front:rear for a more dynamic driving experience!
The FlexRide system responds instantly to data collected from every chassis and drive component. Continuous Damping Control, which adjusts the damper settings in real time, four-channel Anti-lock Braking System with Electronic Brakeforce Distribution (EBD), traction control and Electronic Stability Programme (ESP) – all communicate with each other continuously. FlexRide simply combines all the elements for the chosen driving mode.

When you select Sport mode, Insignia sharpens the speed-sensitive steering response, throttle input and automatic transmission (when fitted), and stiffens the dampers to ensure optimum road contact. On some models, the system even allows you to programme which of the above functions you want more ‘sporty’ via an on-screen menu and the instrument lighting changes from white to red.

When you select Tour mode, the system adjusts the damper settings to further enhance Insignia’s ride comfort. Ideal for long distance motorway journeys.

FlexRide comes as standard on some models and is available as an optional extra on others.

**FlexRide (Adaptive Stability Technology).** Choose an Insignia with FlexRide, and the driving feel can be changed to match your mood. Select Sport mode for a more dynamic, responsive drive. Or Tour mode for a smoother, more relaxed set-up.

Sport or Tour? The touch of a button changes the whole driving dynamics to taut sporting excitement or relaxed long distance cruising.
**Adaptive 4X4 with FlexRide.** Specify the Adaptive 4X4 – permanent four-wheel drive – system with FlexRide and your Insignia will automatically distribute drive between the front and rear wheels as conditions demand. The result? Maximum traction for smooth, strong acceleration, outstanding driving dynamics and more stability in cornering. Press the Sport button and the system distributes more power to the rear wheels in a 40% front:60% rear split for an even more dynamic feel.

Previously only available on selected petrol Turbo models, Adaptive 4X4 is now standard on its first diesel model – the Insignia 2.0CDTi 16v (160PS) 4X4. This new combination of permanent four-wheel drive with low end diesel flexibility offers Insignia drivers a whole new range of possibilities.

The advantages begin when you pull away, all four wheels are engaged for stable acceleration with maximum grip. In normal driving, the power is split 95% front:5% rear, but under acceleration the system automatically diverts more power to the rear wheels for maximum traction before gradually moving power back towards the front wheels.

The electronic Limited Slip Differential (eLSD) fitted to the rear of all 4X4 models offers even more benefits for the enthusiastic driver. By sensing which rear wheel has the most grip, eLSD can transfer more torque to the wheel most able to utilise it. Up to 50% of the rear axle torque can be transferred between the rear wheels, increasing stability during high speed lane changes and providing more traction when accelerating out of corners.
Intelligent Adaptive Forward Lighting (AFL). Insignia’s Intelligent AFL headlights change their pattern to suit the location and the weather. Sensing where you need the light most, they can even help you see around corners and even dip automatically when something is coming the other way. And you can also adjust the system for European driving. AFL comes as standard on Elite and OPC models and is available as an option on most other models.

**Pedestrian area light (up to 30km/h).** Wider spread of light (an extra eight degrees left and right) illuminates potential hazards.

**Motorway light (over 100km/h).**
140 metre range, higher and brighter than normal low beam without dazzle.

**Town light (30 – 55km/h).**
Wider and lower spread of light. Activated by vehicle speed together with street lighting.

**Country road light (55 – 100km/h).**
Wider spread and brighter light than normal low beam. Longer illumination of own lane.

**Dynamic curve light (any speed).** Activated by steering angle and speed, the headlights swivel up to 15 degrees into the curve.

**Adverse weather light (up to 70km/h).** Wiper or rain sensor activated for better vision in bad weather conditions.

**High beam with assist (any speed).** Automatically switches from high to low beam as it detects oncoming or preceding vehicles.

**Static cornering light (up to 40km/h, also when reversing).** Throws light 90 degrees left or right for enhanced lateral vision.

**LED Daytime running light.** Increases your visibility to other road users without increasing fuel consumption (unlike low beam).
A proven Opel safety feature, active front seat head restraints guard against whiplash and other head and upper body injuries. Standard on all models except S.

Safety is always a top priority for Opel. You wouldn’t expect it any other way. In the Insignia, it starts with an optimised body structure that protects you and your fellow passengers in every kind of impact situation. And extends to the latest restraint technology – double pretensioned front seatbelts, pedal release system, side-impact protection beams, active-safety front seat head restraints and a whole lot more.

Insignia’s front airbags are two-stage to prevent the kind of injuries caused if they inflate too quickly. There’s a switch to deactivate the passenger airbags when a child seat is used in the front seat. And front seat side airbags and full-length curtain airbags are standard on every model.
Comprising four side rails with sliding side rail hooks, plus a specially devised 3D storage net and side net pocket, the optional FlexOrganiser® system provides a versatile way to manage the Insignia Sports Tourer load area. A range of FlexOrganiser® accessories is also available including: storage box, adjustable fixing straps and additional side rail hooks.

Sports Tourer takes Insignia’s dynamic looks to a new dimension, with innovative use of space throughout. A deep, wide tailgate aperture with a low loading height makes it easy to use. And FlexOrganiser® technology extends loadspace versatility.

That curved, wrap-around tailgate is not just attractive to look at. It’s intelligently designed, with powered, remote-control opening on SE and Elite models, activated via the key fob, driver’s door switch or a touch-pad on the tailgate. There are three tailgate operating modes. In normal mode the tailgate opens to full height. In intermediate it opens to a reduced height, which can even be pre-programmed, to avoid damage in low clearance areas. In ‘off’ mode the tailgate is operated manually. With a load volume of 530 litres, extendable to 1470 litres with the 60/40 split rear seat folded, the Insignia hatchback models already feature incredible luggage capacity. But the Sports Tourer adds even more – as much as 1530 litres with the rear seats folded.
**Ergonomic Front Seats.** Insignia’s front seats offer incredible comfort and support, with manual or electric operation. There’s a huge range of adjustment – not just for seat travel and recline, but height and lumbar adjustment too – allowing all drivers and passengers to find their ideal seating position.

The Ergonomic Driver’s Sport Seat comes as standard on SRi Limited Edition models. It is available as an optional extra on SC and Elite models and features tilt adjustment, four-way power lumbar support and ergonomic seat contours, including excellent side support. An adjustable seat extension cushion, extending by up to 60 millimetres, also adds superior thigh support for taller drivers. The optional Ergonomic Sport Seats Leather Pack on SRi Limited Edition and SE offers the same features.

With one in two drivers spending more than 90 minutes a day in their car, and as much as two-thirds of the body in contact with the seat while driving, optimum adjustment is a key benefit. Experts agree that the most important requirement is high flexibility, allowing the contour of the seat back to match the natural posture of each individual’s spine. And with no less than 18 adjustment options, the Insignia ergonomic seat succeeds in every area.

It is little wonder it has been awarded a coveted seal of approval from AGR, an independent panel of German doctors and ergonomics experts. The AGR seal is only awarded to ergonomic products that comply with strict medical requirements; in this case, a scientifically proven Insignia seat that effectively helps prevent the back pain and tension suffered by some car occupants.

Climate control is a major factor for Insignia interior comfort. Models featuring single-zone electronic climate control provide constant control of the atmosphere inside the car, with both front and rear air outlets optimised for maximum efficiency and noise reduction. The dual-zone system, standard on Elite and optional on most other models, also features individual temperature control between driver and front passenger. Or if that isn’t enough for you the new optional Winter Pack, available on most models, adds heated front seats and a heated steering wheel, as well as high-pressure headlight washers too.
A place for everything. Insignia provides a multitude of storage and stowage features – all within easy reach of the driver and passengers. In addition to a large glovebox, there’s a driver’s side storage compartment, handy door pockets, drinks holders and front seat back map pockets.

Standard across the range, Insignia’s touch-operated Electric Parking Brake (EPB) with Hill Start Assist (HSA) epitomises the innovation at the heart of this award-winning model. Designed to boost driver comfort and increase parking security, it features a drive away function, which releases the parking brake allowing you to pull away smoothly, and HSA which keeps the brake pressure applied momentarily after you’ve taken your foot off the pedal, preventing you from rolling back on a slope if you haven’t first applied the parking brake. There’s also a hill hold assist function which again stops the vehicle rolling back when moving off on an incline by making sure there’s sufficient engine torque available.
Engine availability
1.4i 16v Turbo Start/Stop*
2.0CDTi 16v (130PS) ecoFLEX Start/Stop*

Insignia S
Hatchback | Saloon | Sports Tourer

Standard features include:
• Automatic lighting featuring daytime running lights
• Air conditioning
• Cruise control
• Leather-wrapped multi-function steering wheel
• Stereo radio with CD player (CD 300)
• Trip computer
• Electric parking brake with hill-start assist
• Front centre armrest with storage facility
• Electrically operated front windows
• Electrically adj./heated door mirrors
• 12-volt power outlet (centre console)
• Electric height-adjustable driver’s seat
• Electric four-way lumbar adjustment on driver’s seat
• Adjustable steering column – reach and tilt
• Driver’s and passenger’s front, side and curtain airbags
• USB connection within centre armrest
• ISOFIX preparation on all three rear seats
• Electronic Stability Program (ESP)
• ABS
• 60/40 split-folding rear seat
• Front and rear reading lights
• Remote control central locking
• Remote control security alarm system
• Electronic boot lid opening (Saloon models only)
• Spare wheel and emergency tool kit

Standard features include:
• Automatic lighting featuring daytime running lights
• Air conditioning
• Cruise control
• Leather-wrapped multi-function steering wheel

Insignia Elite
Hatchback | Saloon | Sports Tourer

Additional features over and above SE models:

• Leather trim with heated front seats
• Intelligent Adaptive Forward Lighting with LED Running Lights and high-pressure headlight washers
• Dynamic headlight beam levelling
• Eight-way electrically adjustable driver’s seat with memory
• Electric height and lumbar adjustment for front passenger's seat
• Electrically foldable door mirrors (electro-chromatic on driver’s side)
• Dual-zone electronic climate control with heat-reflective windscreen and humidity sensor
• Front and rear parking distance sensors
• Front fog lights

Engine availability
2.0CDTi 16v (160PS) ecoFLEX Start/Stop*
2.0CDTi 16v (160PS) automatic

*Manual transmission only.

Automatic transmission is optional at extra cost.
There's no doubt that Insignia OPC says everything about performance. A 2.8 litre V6 Turbo that develops 325PS and a massive 435Nm of torque. With 0-100km/h acceleration in just 6.0 seconds*. But the Insignia OPC is not just about absolute power, but absolute control. An adaptive 4X4 system, electronic Limited Slip Differential (eLSD) and HiPer Strut front suspension system put the driver in total command. Because we understand that with power, comes responsibility.
Insignia OPC is designed to perform, not just with explosive power, but with a Nürburgring-proven, computer-controlled chassis and innovative technology throughout.

**Exterior features include:**
- Unique OPC body styling
- Single, twin-scroll turbocharger and variable valve control
- Performance-optimised exhaust system tuned for sound
- HiPer Strut front suspension for reduced torque-steer and superb grip
- Brembo 350mm diameter vented/cross-drilled front discs
- 19-inch alloy or optional 20-inch forged alloy wheels
- Bi-xenon Adaptive Forward Lighting (AFL)
- Six-speed automatic with paddle-shift facility optional at extra cost

Inside, you’re wrapped in superb Recaro sports front seats and surrounded by unique OPC interior fitments and detailing.

**Interior features include:**
- Recaro sports front seats
- Unique OPC instrument graphics
- Flat-bottom OPC sports steering wheel
- Unique OPC gear knob, alloy pedals and sill plates

* Hatchback and saloon models only.

Interior image illustrated features leather seat facings, and Navi 900 satellite navigation system, both optional at extra cost.

Tyre size 225/50 R 17.
Inspired by our hugely successful racing heritage, OPC Styling products reflect this experience, knowledge and passion for style and performance. Standard on Insignia SRi Limited Edition models and available as a factory-fit option pack (or as accessories fitted by your Opel dealer) on other models, the OPC Styling range adds flair, personality and excitement to your car.

The OPC Styling Pack is available on all three body styles and features body-coloured front lower spoiler, side sills, rear lower skirt and rear spoiler (not available on Sports Tourer models). The space-saver spare wheel is replaced by an emergency tyre inflation kit when the OPC Styling Pack is fitted. 20-inch 5-twinspoke alloy wheels with 245/35 R 20 ultralow profile tyres (available on SRi Limited Edition, SE and Elite models only), Adaptive Forward Lighting (AFL) and two-coat metallic paint illustrated are optional at extra cost.
This useful safety pack comprises a first aid kit, warning triangle and a hi-visibility vest and is a legal requirement in many countries. (Items also available separately.)

Available in black or dark brown, both with the Insignia logo. This set of four velour floor mats fits to the anchor points in the car, protecting the interior of your Insignia.

Designed for a snug fit, this semi-rigid cargo liner provides maximum protection yet is easily removed for cleaning. Available for saloon, hatchback and Sports Tourer models.

FURTHER ACCESSORIES INCLUDE:

- FlexOrganiser® system (Sports Tourer)
- Dog guard (Sports Tourer)
- Base carrier – aluminium
- Tow bar mounted bicycle carrier
- Fixed or detachable towing hitch with 7 or 13-pin connection

Every effort has been made to ensure that the contents of this publication were accurate and up-to-date at the time of going to press (October 2012). Opel vehicles are equipped with components manufactured by various General Motors operating units and outside suppliers. The Company reserves the right to change specifications and withdraw products from sale without notice. Any such alterations will be notified to Opel dealers at the earliest opportunity; please consult your local dealer for the latest information. The specifications detailed within this brochure are not necessarily applicable to alternative models such as Special Editions. Details of any such models will be contained in specific literature or found on the Opel website. The colours reproduced in this brochure may vary slightly from the actual paint colour or trim material due to the limitations of the printing process. Please note that Opel dealers are not the agents of General Motors Ireland Limited and are not authorised to bind the Company by any specific or implied undertaking or representation. It is advisable to ensure that your motor insurance policy provides adequate cover for additional fitted options and accessories. As part of Opel’s policy of environmental care, this brochure is printed on paper manufactured using Elemental Chlorine Free pulps from specially farmed, sustainable timber resources. Opel Service.

Europe-wide Customer Service.
Throughout Europe, more than 6,000 Opel repair workshops are ready to provide professional and punctual service. As you’d expect, they’ll repair your vehicle to the highest standards. More unusually, perhaps, they’ll tell you exactly what’s been done and why, and they will show any costs involved clearly and concisely.

New Vehicle Warranty.
2-year new vehicle warranty. This warranty applies to any new Opel car for a period of 24 months without any mileage restrictions, as from the day on which it was either registered for the first time or delivered to the customer by the dealer, depending on which date comes first.

Opel Roadside Assistance.
This free-of-charge mobility service is valid for all new Opel vehicles during the first year after the date on which they were first registered or delivered to the customer by the dealer, depending on which date comes first. No matter where you are, the Opel Assistance is there to help. In more than 40 European countries – round the clock. Offering services such as breakdown assistance, towing services, rental car, hotel accommodation or the organisation of onward transportation, e.g. via rail or air (please see programme conditions).

12-year Anti-Perforation Warranty.
Opel provides you with a reliable long-term warranty against perforation, provided you have your vehicle serviced and all necessary inspections performed according to the service booklet.

2-year Warranty for Opel Batteries.
With a 2-year warranty for service-installed Opel original batteries your starting problems are over – even in the coldest winter.

Parts and Accessories Service.
Opel parts and accessories are available at your local Opel Shop, where you’ll find everything to make your vehicle more comfortable or to meet your individual needs, as well as expert advice.

Opel on the Internet.
Need instant information? At www.opel.ie you can access a wealth of information on all Opel cars, services, and accessories. Get online for Opel news and product updates.

Recycling.
Information about Design for Recycling, Take-Back points for End of Life Vehicles (ELVs) and the recycling of ELVs can be found on the Opel website www.opel.ie

In case of any questions, please ask your Opel dealer. More information can be found at www.opel.ie
